## **OUTLINE**

- A. UNIVERSITY & FACULTY STRATEGIC PLAN**
- B. STRATEGIES TO IMPLEMENT ESD**
- C. WHAT'S NEXT**

# University & Faculty Strategic Plan

## **Aim 1, target 2 (education):**

Development of learning systems (intra-, co-, and extra-curriculum) which are able to solve **local, national** and **global challenges**

## **Aim 2 (research):**

Research and its products which **environmentally friendly**, applicative and responsive towards community, nation and country's problems and challenges and can be used as national reference

## **Aims 3 (community services):**

Community services which able to support **sustainability** of community independency and prosperity

## **Aim 4, target 4 (management system):**

Development of physical resources management system which is accommodative and **environmentally friendly**.

Locally Rooted, Globally Respected

## Strategies to Implement ESD

1. Synergizing Scattered Programs
2. Institutionalization in Faculty
3. Strengthening Network Activities
4. Programs for School

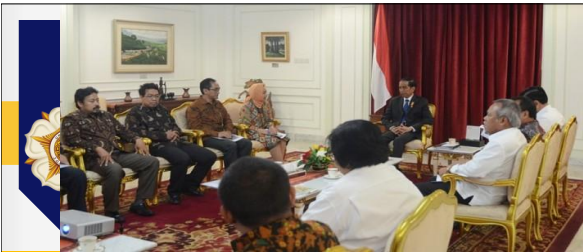

**No-one left  
behind!**

## Networking in Sustainability, Resiliency and Humanitarian Actions

- **International Collaboration to Support Curriculum Relaxation towards Sustainable Development:**

- Credit transfer program through AUN-ACTS, Re-inventing Japan Programs, AIMS Programs, Etc.
- Double degree programs
- Summer Courses in Sustainability Issues

Disaster Risk Reduction

Books Publication: ESD

Climate Change: In Search of Balance

Sustainable Peat Management: With Industry  
Locally Rooted, Globally Respected

Sustainable Cities and Waste Management
